Capabilities Statement

Gallion Sweeping Co. Inc. is available to clean up the streets during and after your grinding/paving operations each day. Our fleet currently has three Xbroom Street Sweepers that are specifically designed for heavy milling and aggregate highway project work. Our machines are Clean Ideal and PM10 Compliant. They are 2020 and newer. We have other street Sweepers as well for disaster response and construction needs. Our operators and staff are here to make your project go well.

Gallion Sweeping Co. Inc. specializes in being a part of the team (Subcontractors) that build and repair our highway, streets, and roads in Ventura, CA, and neighboring counties. We clean up the fallen debris that comes from the Grinding/ Milling Machines as they grind up the old road. We also clean up after the Paving machines. We are available for disaster relief as well. We clean up construction sites that are importing or exporting dirt for a project. We work various roads and parking lot repair processes.

Core Competencies

- Freeway and Highway Street Sweeping in Construction Zones
- Milling and Grinding Broom Street Sweeping
- Micro Milling Broom Street Sweeping
- Paving and Overlaying of Streets
- Disaster Response - Mudflow and Fire
- Construction Dirt Haul Import or Export Operations
- New Or Repair Parking lots Grinding and Paving

Differentiators

Xbroom Street Sweepers were designed for heavy highway work. The back broom down presser ability and larger hopper capacity allows for better performance. The onboard cameras and ergonomics of the machine allow for safer operations. Our team has been street-sweeping together for over 6 years. Our driver has a class A or B CDL issued by CA. We have Master Contract Agreements with Granite Construction Co., C.A. Rasmussen Inc., Pavement Recycling, and Toro Enterprises.
